Tools: Jira, Confluence, Azure DevOps, Excel, Google Sheets, Visio, Figma, Slack, Microsoft Teams.

Cloud & Technical: Microsoft Azure, CI/CD, APIs, SQL, networking fundamentals (CCNA level).

AI & Automation: Generative AI (ChatGPT, Claude, MS Copilot), predictive analytics (Power BI Copilot), AI powered documentation (Jira/Confluence AI), workflow automation.

Professional Experience

Senior Business Analyst / Product Owner

June 2025 to Present

Cloudgen Technologies

Remote, Canada

- Led business analysis and product ownership for cloud enabled web applications, working with business and technical stakeholders to define and prioritize features in Jira.
- Owned and refined the product backlog, supported sprint planning and reviews, and coordinated UAT and release readiness with QA and development teams.

Product Owner / Business Analyst

Jan 2019 to May 2025

AFOM Solutions Pvt Ltd

Hyderabad, India

- Led end to end product lifecycle for SaaS apps from discovery and UX to development and launch, scaling the user base from zero to thousands of active users through data driven iteration.
- Built and scaled 5 eCommerce platforms to **£2M+ annual revenue** each, leading cross functional teams from discovery to launch and achieving **7x ROAS and 25 to 30% AOV growth**.
- Facilitated stakeholder workshops to elicit requirements and convert them into epics, user stories, and acceptance criteria aligned to product goals.
- Managed and prioritized product backlogs, guided development teams through Agile ceremonies, and supported a consistent sprint and release cadence.

IT Delivery Manager

Jan 2016 to Nov 2018

Wiprosoft UK Ltd

London & Manchester, United Kingdom

- Coordinated delivery of web and digital initiatives, aligning business stakeholders, vendors, and technical teams on scope, timelines, and quality.
- Gathered and documented application requirements, maintained traceability, and ensured alignment with business objectives.
- Supported Agile delivery through sprint planning, backlog grooming, status reporting, and risk and dependency tracking.

Education

MSc, Telecommunication Engineering

2012 to 2013

Middlesex University

London, United Kingdom

B.Tech, Electronics & Communication Engineering

2008 to 2012

Jawaharlal Nehru Technological University

Hyderabad, India
