

FleetFix - BRD

Business Requirements Document (BRD)

FleetFix – On-Demand Multi-Vertical Service Platform

Version: 1.0

1. Introduction

FleetFix is a mobile-first, on-demand service platform connecting customers with qualified service providers ("Fixers") across multiple verticals:

- Roadside Assistance (towing, jumpstarts, locksmith, tire, fuel)
- Car Rentals with Delivery & Pickup
- Peer-to-Peer or B2C Delivery Services

FleetFix enables seamless service delivery through:

- Customer & Fixer mobile apps
 - Admin dashboard
 - Escrow-based payments
 - Real-time GPS tracking
 - Fixer certification & training system
-

2. Business Objectives

- Launch MVP in **Arizona and California** by **Q4 2025**

- Enable fast, affordable, and reliable services across all verticals
- Establish strong trust via licensed/certified Fixers and real-time tracking
- Streamline earnings for Fixers through automated payouts
- Create a scalable foundation for future verticals (e.g., groceries)

3. Stakeholder Map

Stakeholder	Role
Customers	Request roadside, rental, and delivery services via app
Fixers	Fulfill requests; certified professionals or community workers
Admin Team	Approvals, disputes, training, CMS, payouts
Insurance Partners	Vehicle and job-based liability coverage (future integration)
Rental Shops	Provide rental vehicles
Investors	Funding and strategic direction
Development Team	Build and maintain web and mobile platforms

4. Scope of MVP (In Scope)

Core Modules

- Customer App
- Fixer App
- Admin Web Panel
- Fixer Certification & Training
- Escrow & Payment Flows
- GPS & ETA Logic
- SMS & Push Notifications
- Booking Management
- Payout Handling

5. Out of Scope (MVP)

- In-app Messaging / Chat
 - Grocery Delivery (Phase 2)
 - Community Forum / Gamification
 - Video Calls with Fixer
-

6. Assumptions & Constraints

- MVP limited to AZ & CA
 - Only licensed rental shops can supply vehicles
 - Roadside Fixers must have ASE certification
 - Rentals are full-day only
 - Jobs operate on escrow-based pre-payment
 - Admin can geo-limit Fixer service areas
-

7. Functional Overview

7.1 Customer App (Demand Side)

- Book roadside services
- Book rental cars with delivery
- Schedule delivery services
- Live ETA and Fixer tracking
- Secure escrow payments
- Rate & review Fixers
- SMS & push notifications

7.2 Fixer App (Supply Side)

- Registration, KYC, certification upload

- Training module completion
- Accept/reject jobs and update status
- Live GPS sharing
- Earnings view and payout requests (≤ 48 hours)
- Alerts for jobs, payments, and ratings
- Region and service eligibility visibility

7.3 Admin Dashboard

- Approve or suspend Fixers
 - Upload and manage training modules
 - View job logs, payments, refunds
 - Handle disputes with evidence
 - Configure system settings
 - Manage service-region mappings
 - Monitor live bookings and KPIs
-

8. Fixer Onboarding Flow

1. Submit personal details, license, and certifications
 2. Identity verification (ID + selfie)
 3. Admin review and approval
 4. Assign required training modules
 5. Fixer unlocked for jobs after KYC and training completion
-

9. Payment & Monetization Flows

- Customer prepays into escrow (Stripe, Apple Pay, etc.)
- Job completion triggers admin validation

- Payout released to Fixer minus commission
- Configurable commissions and service fees
- Dynamic cancellation and refund rules

Payment Flows

- Escrow Fund Flow
 - Fixer Payout Flow
 - Dispute Refund Flow
-

10. Notifications & Communication

Push + SMS Notifications

- Booking accepted
- Fixer en route
- Arrival & ETA
- Job started/completed
- Payment updates

Escalation Alerts

- Late arrival
- Cancellations
- Inactivity

Admins may send override messages to Fixers or Customers.

11. Admin Panel Features

- Fixer & Customer Management
- Booking logs with real-time status
- Certification & training management
- Payment monitoring and payout batches

- System flags and service zone toggles
 - KPI dashboards
 - CMS for public pages (TOS, Privacy)
-

12. Fixer Certification System

- Upload documents by service type
 - Complete training videos or slides
 - Optional quizzes with pass thresholds
 - Certification Levels:
 - **Basic:** Limited services
 - **Intermediate:** Delivery & light repairs
 - **Advanced:** Full service + region unlock
 - Certification expiration tracking (e.g., ASE renewals)
-

13. Regulatory Risks

Type	Description
Insurance	Mandatory coverage for rentals and roadside jobs
Liability	Clear terms for accidents, fraud, injuries
Contractor Status	Fixers treated as independent contractors
Escrow Compliance	Stripe Connect and payment regulation compliance

14. Risk Register

Risk	Mitigation
Fixer shortages	Certification drives and zone-based incentives
GPS inaccuracies	Fallback APIs and retry logic
Payment failures	Stripe fallback and admin override

Risk	Mitigation
Job cancellations	Dynamic penalties and ETA transparency
Legal compliance	Legal review and vetted document flows

15. KPIs & Success Metrics

Metric	Target
Fixer Certification Rate	≥ 90% in 3 months
Job Completion Rate	> 92%
Average ETA	< 20 mins (metro)
Customer Churn	< 20% monthly
Revenue per Job	\$18–\$30
Average Rating	≥ 4.5 stars
Dispute Rate	< 2%
Payout Time	< 48 hours

16. Non-Functional Requirements (NFRs)

Category	Description
Scalability	10,000+ concurrent users, modular microservices
Security	AES encryption, secure S3, Admin 2FA
Compliance	GDPR, CCPA, PCI-DSS
Uptime	99.5% with AWS/GCP
Performance	Booking flow < 5 seconds
Logging	Admin actions, jobs, GPS, payouts with timestamps
