

Haul Pro - FRD

Functional Requirements Document (FRD)

1. Overview

Product Name: Haul Pro

Document Type: Functional Requirements Document (FRD)

Prepared By: Product Owner / Business Analyst

Purpose:

Haul Pro is a compliance and operations management system for transport companies, enabling Super Admins, Managers, and Drivers to manage daily vehicle checklists, documentation, appointments, and regulatory reporting in a structured and auditable manner.

2. System Actors & Modules

System Roles

Role	Description
Super Admin	Manages clients, managers, global configurations
Manager	Manages drivers, vehicles, reports, and compliance
Driver	Submits daily checklists, uploads documents, manages notes and appointments

System Modules

Module	Description
Module 1	Super Admin Portal
Module 2	Manager Portal
Module 3	Driver Mobile/Web App

3. Module 1 – Super Admin

3.1 Authentication & Dashboard

User Story

As a Super Admin, I want to securely log in and view system-level statistics so that I can monitor overall platform usage.

ID	Requirement
SA-FR-1	Super Admin can log in using email and password via a secure login page
SA-FR-2	Dashboard displays total counts of Clients, Managers, Drivers, and Vehicles

3.2 Client Management

User Story

As a Super Admin, I want to create and manage transport clients so that access and validity can be centrally controlled.

ID	Requirement
SA-FR-3	Create a new Client with Name, Address, Contact Person, Email, Phone, Contract Dates, Status
SA-FR-4	View paginated client list with contract validity
SA-FR-5	Edit client details and deactivate clients to block access
SA-FR-6	Search and filter clients by name, email, and status

3.3 Manager Management

User Story

As a Super Admin, I want to assign managers to clients so that each client can manage its own drivers and vehicles.

ID	Requirement
SA-FR-7	Create Manager linked to a specific client
SA-FR-8	One client can have multiple managers
SA-FR-9	Reset manager passwords and activate/deactivate accounts
SA-FR-10	Filter managers by client and status

3.4 Global Checklist & Configuration

User Story

As a Super Admin, I want to define global checklist standards so that compliance remains consistent across all clients.

ID	Requirement
SA-FR-11	Define global checklist items available to all drivers
SA-FR-12	Enable or disable checklist items and categories
SA-FR-13	Configure report and note categories

4. Module 2 – Manager

4.1 Authentication & Access Control

User Story

As a Manager, I want access only to my client's data so that information remains isolated and secure.

ID	Requirement
M-FR-1	Manager login restricted to assigned client
M-FR-2	Password reset and logout supported

4.2 Driver Management

User Story

As a Manager, I want to manage driver profiles so that only authorized drivers can submit compliance data.

ID	Requirement
M-FR-3	Create driver profile with license details
M-FR-4	Edit, deactivate, or delete inactive drivers
M-FR-5	Assign vehicles to drivers and view their activity

4.3 Vehicle Management

User Story

As a Manager, I want to manage vehicles and documents so that regulatory compliance is always visible and auditable.

ID	Requirement
M-FR-6	Create vehicle with registration, insurance, MOT, tax details
M-FR-7	Edit and deactivate vehicles
M-FR-8	Assign primary and secondary drivers
M-FR-9	Upload vehicle and compliance documents in structured folders

4.4 Monitoring & Reports

User Story

As a Manager, I want visibility into driver submissions so that I can monitor daily compliance and audits.

ID	Requirement
M-FR-10	View daily checklists with filters
M-FR-11	View maintenance, fuel, and notes reports
M-FR-12	Export reports to CSV and PDF
M-FR-13	Receive alerts for upcoming expiries

5. Module 3 – Driver

5.1 Authentication & Account

User Story

As a Driver, I want a simple login and account screen so that I can quickly access daily tasks.

ID	Requirement
D-FR-1	Driver login via mobile or web
D-FR-2	Account screen shows greeting and validity
D-FR-3	Access support, about, logout, delete account

5.2 Daily Checklist

User Story

As a Driver, I want to complete a daily vehicle checklist so that safety and compliance are recorded.

ID	Requirement
D-FR-4	View standardized daily checklist
D-FR-5	Select individual items or Select All
D-FR-6	Date defaults to today; location captured
D-FR-7	Checklist saved with timestamp and metadata

5.3 Uploads & Documents

User Story

As a Driver, I want to upload documents so that records are stored digitally and securely.

ID	Requirement
D-FR-8	View predefined document folders

ID	Requirement
D-FR-9	Create custom folders
D-FR-10	Upload, view, and delete files with modified date

5.4 Notes & Reports

User Story

As a Driver, I want to record notes and reports so that issues are documented transparently.

ID	Requirement
D-FR-11	View Notes, Maintenance, Fuel categories
D-FR-12	Create notes with name and content
D-FR-13	Edit/delete notes; manager has read-only access

5.5 Appointments & Planner

User Story

As a Driver, I want reminders for inspections and services so that nothing is missed.

ID	Requirement
D-FR-14	View list of appointments
D-FR-15	Create new appointment with details
D-FR-16	Edit or delete appointments
D-FR-17	Receive reminders for key events

5.6 Navigation & UX

User Story

As a Driver, I want consistent navigation so that the app is easy to use.

ID	Requirement
D-FR-18	Bottom navigation bar available at all times
D-FR-19	Unsaved data preserved until submit or cancel

6. Non-Functional Requirements

ID	Requirement
NFR-1	Role-based access control
NFR-2	HTTPS and secure authentication
NFR-3	Secure cloud storage with backups
NFR-4	Full audit logs for all critical actions
NFR-5	Support iOS, Android, and Web
